Social Media Policy

Social media (e.g. Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them. Social media also includes blogging and on line discussion forums.

MCLP recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and pupils/students are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by MCLP, its schools, staff, parents, carers and children.

Scope

This policy is subject to the Trust's Code of Conduct and Acceptable Use Agreement.

This policy:

- **Applies to all staff and to all online communications which directly or indirectly, represent the schools within the MCLP.**
- **Applies to such online communications posted at any time and from anywhere.**
- **Encourages the safe and responsible use of social media through training and education**
- **Defines the monitoring of public social media activity pertaining to the schools within the MCLP**

MCLP respects privacy and understands that staff and pupils/students may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the Trust or a school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media account. In all cases, where a personal account is used which associates itself with MCLP or one of its schools, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

Personal communications which do not refer to or impact upon the MCLP or one of its school are outside the scope of this policy.

Digital communications with pupils/students are also considered.

Process for creating new accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a school Twitter account, or a “Friends of the school” Facebook page. Anyone wishing to create such an account must present a **documented** business case to the School Leadership Team which covers the following points:-

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and

understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts will be monitored daily by the designated person with responsibility for media accounts. Any comments, queries or complaints made through these accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Daily monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- **The Trust requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.**
- **Digital communications by staff must be professional and respectful at all times and in accordance with this policy.** Staff should not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are not permitted in relation to school activity.
- If a journalist makes contact about posts made using social media staff must contact the Central Team to seek advice.
- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the Trust and will be reported as soon as possible to the Headteacher and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies.
- The Trust will take appropriate action in the event of breaches of the Social Media Policy. Where conduct is found to be unacceptable, each school within the Trust will initially deal with the matter internally. In instances of criminal conduct the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

Legal considerations

- **Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.**
- **Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.**

Handling abuse

- When acting on behalf of the school or Trust, staff must handle offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of a social networking site, then this action must be reported using the agreed school protocols.

Tone

The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing messages are:

- Engaging
- Conversational
- Informative
- Friendly (on certain platforms, e.g. Facebook)

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- **Permission to use any photos or video recordings should be sought in line with the school's digital and video images policy.** If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected. Schools should hold a list of pupils who cannot be photographed and this should be checked annually to ensure it is up to date. **Under no circumstances should staff share or upload student pictures online other than via school owned social media accounts**
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Students should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.

Personal use

- **Staff**
 - Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not

communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

- Personal communications which do not refer to or impact upon the school are outside the scope of this policy. Staff however should be mindful of posting anything which could be deemed as inappropriate or unacceptable behaviour and which may have an impact on their professionalism.
 - Staff should be aware that if their out-of-work activity causes potential embarrassment for the employer or detrimentally effects the employer's reputation then the employer is entitled to take disciplinary action.
 - Violation of this policy could be considered as gross misconduct and could result in disciplinary action being taken against the employee up to and including termination of employment.
 - Personal use of the internet and / or social media during school timetabled teaching work is not permitted and disciplinary action will be taken
 - The school permits reasonable and appropriate access to private social media sites out of working hours.
 - The use of social media must not interfere with business or office commitments;
 - Staff are strongly advised to ensure that they set up and regularly review the privacy levels of their personal sites as strictly as they can and to opt out of public listings on social networking sites to protect their own privacy. Staff members should keep their passwords confidential, change them often and be careful what is posted online; they should not reveal home addresses, telephone numbers and other personal information.
 - School email should not be used for anything other than school related issues.
- **Pupil/Students**
 - **Staff are not permitted to follow or engage with current or prior pupils/students of the school on any personal social media network account.**
 - The school's education programme should enable the pupils/students to be safe and responsible users of social media.
 - Pupils/students are encouraged to comment or post appropriately about the school. Any offensive or inappropriate comments will be resolved by the use of the school's behaviour policy
 - Students should be made aware of the age limits for social media sites. Any student who requests to follow an official social media site must be of the correct age. If a student below the correct age makes this request this should be highlighted as a safeguarding concern.

- **Parents/Carers**
 - Each school within the Trust has an active parent/carer education programme which supports the safe and positive use of social media. This includes information on the website.
 - Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, parents will be referred to the Trust's complaints procedures.

Monitoring posts about the school

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.
- Where the reputation of the Academy would potentially be at risk this will be reported to the CEO who will contact the Legal team for advice and will be dealt with according to this.
